INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members
of the Board of Aldermen
Town of Louisville
Louisville, Tennessee

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the Town of Louisville, Tennessee (the Town), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and the major fund of the Town of Louisville as of June 30, 2021, and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 – 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Louisville, Tennessee's basic financial statements. The introduction section, other supplementary information, and miscellaneous schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introduction section, other supplementary information, and miscellaneous schedule have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 27, 2022, on our consideration of the Town of Louisville, Tennessee's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Louisville, Tennessee's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Louisville, Tennessee's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Town of Louisville's (the Town) Annual Financial Report presents a narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2021.

FINANCIAL HIGHLIGHTS

- ◆ The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$5,467,850 (net position). Of this amount, \$2,811,153 (unrestricted) may be used to meet the government's ongoing obligations to citizens and creditors.
- ◆ At June 30, 2021, the Town's governmental fund reported ending fund balance of \$2,946,322. At June 30, 2021 approximately 95% of this total amount, or \$2,797,788, is unassigned fund balance available for spending at the government's discretion.
- ◆ At June 30, 2021, total unassigned fund balance for the general fund was \$2,797,788. This amount was 237% of total general fund expenditures.
- ◆ The Town issued no new general obligation debt during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: (1) **Government-wide** financial statements, (2) **Fund** financial statements, and (3) **Notes** to the financial statements. This report also contains **other supplementary information** in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The **statement of net position** presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the Town is improving or deteriorating.

The **statement of activities** presents information showing how the Town's net position changed during the current fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

Both of the government-wide statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the Town include highways and streets, parks and recreation, and general government.

Fund Financial Statements

The fund financial statements are designed to report information about groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. All of the Town's basic services are reported in governmental funds. These statements, however, focus on near term inflows and outflows of spendable resources and spendable resources available at the end of the fiscal year. Such information may be useful in determining what financial resources are available in the near future to finance the Town's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains one individual governmental fund organized according to its type (general fund). Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund (major fund).

The Town adopts an annual appropriated budget for the general fund. Budgetary comparison statements have been provided in the basic financial statements for the general fund to demonstrate compliance with the budget.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE STATEMENTS FINANCIAL ANALYSIS

The Town presents its financial statements under the reporting model required by the Governmental Accounting Standards Board Statement No. 34 (GASB 34), Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments.

	Net Position	
	Governmental Activities

Net Position at End of Year	<u>\$ 5,467,850</u>	<u>\$ 5,058,538</u>

FUND STATEMENTS FINANCIAL ANALYSIS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Governmental funds consist of the General Fund.

The General Fund is the chief operating fund of the Town. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$2,797,788 (nonspendable portion equaled \$13,365, and the restricted portion equaled \$135,169), while total fund balance was \$2,946,322. As a measure of the General Fund's liquidity, it may be useful to compare both total unassigned fund balance and total fund balance to total fund expenditures. Total unassigned fund balance represents 237% total general fund expenditures of \$1,181,232, while total fund balance represents 249% of that same amount.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The Town's capital assets for its governmental activities as of June 30, 2021 and 2020 amount to \$2,521,528 and \$2,606,462 respectively (net of accumulated depreciation). Capital assets include land, buildings, infrastructure, improvements, machinery and equipment, and construction in progress. The table below reflects the capital assets at the end of the fiscal year:

	Capital Assets, Net of Depreciation	
	Governmental Activities	
	<u>June 30, 2021</u>	<u>June 30, 2020</u>
Land	\$ 917,953	\$ 917,953
Buildings	1,687,010	1,687,010
Improvements	638,928	617,178
Equipment	<u>561,674</u>	<u>562,054</u>
Total Capital Assets	3,805,565	3,784,195
Less: Accumulated Depreciation	<u>(1,284,037)</u>	<u>(1,177,733)</u>
Capital Assets, net of depreciation	<u>\$ 2,521,528</u>	<u>\$ 2,606,462</u>

Major capital asset additions include the construction of a dog park and a new campground fence during the fiscal year ended June 30, 2021 at a cost of \$21,750.

For government-wide financial statement presentation, all depreciable capital assets are depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures. Please refer to the Notes to the Financial Statements for further information regarding capital assets.

Debt Administration

At the end of the current fiscal year, the Town had no outstanding total long-term obligations. The Town issued no new debt during the current fiscal year.

OTHER MATTERS

The final budget for the fiscal year ended June 30, 2021 was \$1,625,000. The budget was amended during the fiscal year ended June 30, 2021 increasing the total budget by \$280,000.

The preliminary budget for the Town of Louisville for the fiscal year beginning July 1, 2021 and ending June 30, 2022 totals \$1,565,000, which represents a decrease of \$60,000 over last year's final budget.

The fiscal 2022 budget will provide the excellent services that the citizens of Louisville have grown accustomed to receiving. This level of service is directly attributable to the Town's well-trained and dedicated workforce coupled with the support of a progressive Town Commission.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, city commissioners, customers, investors, and creditors with a general overview of the Town's finances. If you have any questions about this report or need additional information, contact:

TOWN OF LOUISVILLE, TENNESSEE

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

TOWN OF LOUISVILLE, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

(A) DEFINITION OF REPORTING ENTITY:

The Town of Louisville, Tennessee, was incorporated under the laws of the State of Tennessee under Public Chapter 154 in 1991, and operates under an elected Mayor-Aldermen form of government. All funds under the control, authority, or oversight of the Town's governing body (Board of Aldermen) are included in these financial statements.

(B) FINANCIAL REPORTING ENTITY:

The accompanying financial statements present the Town of Louisville (primary government) and all funds, organizations, agencies, and offices that are a part of the primary government. The criteria for determining a primary government consist of the following:

- (1) A separately elected governing body
- (2) Separate legal standing – corporate power with the capacity to have a name; the right to sue and be sued in its own name without recourse to a state or local governmental unit; and, the right to buy, sell, lease, or mortgage property in its own name.
- (3) Fiscal independence of other state and local governments by determining its budget, levying taxes, setting rates or charges, and issuing bonded debt without approval by another government.

Based on applying the criteria set forth in the Governmental Accounting Standards Board (GASB) Statement 14 – “The Financial Reporting Entity”, as amended by GASB Statement 39 – “Determining Whether Certain Organizations are Component Units”, there are no potential component units for inclusion in the primary government. The financial reporting entity includes all funds, agencies, offices and departments which are a part of the primary government.

(C) BASIC FINANCIAL STATEMENTS – GASB NO. 34:

The basic financial statements include both government-wide (based on the Town as a whole and its component units) and fund financial statements. Both the government-wide and fund financial statements categorize the Town’s activities as governmental activities. *Governmental activities* are normally supported by taxes and intergovernmental revenues. All activities are reported in the government-wide financial statements using the economic resources measurement focus and the accrual basis of accounting, which includes long-term assets as well as long-term obligations. The government-wide financial statements focus more on the sustainability of the Town as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

TOWN OF LOUISVILLE, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(C) BASIC FINANCIAL STATEMENTS – GASB NO. 34 (Continued):

The government-wide Statement of Activities demonstrates the degree to which the direct expenses, including depreciation, of the various departments of the City are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific department. Interest on general long-term debt and depreciation expense on assets shared by multiple departments, are not allocated to the various departments. Program revenues include revenues from fines and forfeitures, licenses and permit fees, special assessment taxes, certain intergovernmental grants, other entities participation and charges for services. Taxes and other items not properly included among program revenues are reported as general revenues.

Generally, the effect of interfund activity has been removed from the government-wide financial statements.

The Town does not currently utilize an indirect cost allocation system. The General Fund charges certain administrative fees to departments within the operating fund to support general services used by those departments. The expenditures/expenses are recorded as a reduction of expense in the allocating department. Therefore, no elimination is required from either the government-wide or fund level financial statements. There are no non-major funds.

(D) BASIS OF PRESENTATION:

The Town uses funds to report on its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid in the Town's financial management by segregating transactions related to certain functions or activities.

The following fund categories are used by the Town:

GOVERNMENTAL FUNDS: All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Sales taxes are considered "measurable" (susceptible to accrual) when in the hands of intermediary collecting agencies and are recognized as revenues at that time. All other intergovernmental revenues are recorded as revenue when received. Expenditures are recognized when the related fund liability is incurred.

GENERAL FUND: The General Fund is established to account for resources devoted to financing the general services that the Town performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the Town are included in this fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is always considered a major fund in the basic financial statements.

(Continued)

TOWN OF LOUISVILLE, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(E) MEASUREMENT FOCUS AND BASIS OF ACCOUNTING:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to 1) demonstrate legal and covenant compliance, 2) demonstrate the source and use of liquid resources, and 3) demonstrate how the Town's actual experience conforms to the biennial budget. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" is defined as collectible within the current period or within 60 days of the end of the current fiscal period. Expenditures, other than interest on long-term debt, are recorded when the related fund liability is incurred, if measurable. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due.

Revenues susceptible to accrual include local sales tax, state-shared sales tax, highway user tax, vehicle license tax, franchise fees, special assessments and interest earned on investments. Licenses and permits, charges for services, fines and forfeitures and miscellaneous revenues are generally recorded as revenues when received in cash because they are not measurable until actually received. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for a specific purpose or project before any amounts will be paid to the Town; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to the purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

The Town reports unearned revenues in the governmental funds if the potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the Town before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Town has a legal claim to the resources, the liability for unearned revenue is removed and revenue is recognized.

Since the governmental fund financial statements are presented on a basis different than the governmental activities column of the government-wide financial statements, a reconciliation is provided immediately following each fund statement. These reconciliations briefly explain the adjustments necessary to transform the fund financial statements into the governmental activities column of the government-wide financial statements.

(Continued)

TOWN OF LOUISVILLE, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(E) **MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (Continued):**

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as program revenue include 1) charges to customers or users who purchase, use or directly benefit from goods or services provided by a particular department 2) operating grants and contributions that are restricted. Taxes, investment income and other revenues not identifiable with a particular department, are included as general revenues. The general revenues support the net costs of the departments not covered by the program revenues.

When both restricted and unrestricted resources are available for use, it is the Town’s policy to use restricted resources first, then unrestricted resources, as they are needed.

(F) **GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENT NO. 34:**

The Town utilizes the provisions of GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Government*. This statement affects the manner in which the Town records transactions and presents financial information. State and local governments have traditionally used a financial reporting model substantially different from the one used to prepare private-sector financial reports.

Management’s Discussion and Analysis – The financial statements are accompanied by a narrative introduction and analytical overview of the Town’s financial activities in the form of “management’s discussion and analysis” (MD&A).

Government-Wide Financial Statements – The reporting model includes financial statements prepared using full accrual accounting for all of the Town’s activities. This approach includes not just current assets and liabilities but also capital and other long-term assets as well as long-term liabilities. Accrual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter.

Statement of Net Position – The statement of net position is designed to display the financial position of the primary government (government and business-type activities). The Town reports all capital assets in the government-wide statement of net position and reports depreciation expense – the cost of “using up” capital assets – in the statement of activities. The net position of the Town are broken down into three categories – 1) investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities – The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the Town’s functions. The expense of individual functions is compared to the revenue generated directly by the function.

Accordingly, the Town has recorded capital and certain other long-term assets and liabilities in the statement of net position, and has reported all revenues and the cost of providing services under the accrual basis of accounting in the statement of activities.

(Continued)

TOWN OF LOUISVILLE, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(G) BUDGETARY DATA:

Formal budgetary accounting is employed as a management control for the General Fund of the Town of Louisville, Tennessee. Annual operating budgets are adopted each fiscal year through passage of a budget ordinance, and amended as required using the same basis of accounting to reflect actual revenues and expenditures recognized in accordance with generally accepted accounting principles. The legal level of budgetary control is by function. All unencumbered budget appropriations lapse at the end of each fiscal year.

(H) FUND BALANCES:

Governmental fund equity is classified as fund balance. The Town classifies fund balance in accordance with Governmental Accounting Standards Board (GASB) Statement 54, Fund Balance and Government Fund Type Definitions. Under this statement fund balances are classified into the following categories:

- a. Nonspendable fund balances comprise those amounts that are legally or contractually required to be maintained intact.
- b. Restricted fund balances comprise those amounts constrained to be used for a specific purpose by external parties, constitutional provisions or enabling legislation.
- c. Committed fund balances comprise those amounts constrained by the government itself using its highest level of governing body (Board of Aldermen) using its highest level of authority (ordinance).
- d. Assigned fund balances are amounts intended to be used for a specific purpose by the governing body through action other than the highest level of authority or an official expressly authorized by the governing body. This amount can also include amounts needed to balance the next year's budget when the budget is approved by ordinance.
- e. Unassigned fund balances are any amounts other than those described above and are available for any purpose.

The Town has no formal policy with regard to classifying expenditures among the various classifications. Thus, the default provision under GASB Statement 54 apply expenditures first to restricted resources, then to committed resources, then to assigned resources, and finally to unassigned resources. No Town official is granted the authority to assign fund balance. In addition, the Town has no formal policy with regard to stabilization funds.

(Continued)

TOWN OF LOUISVILLE, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
June 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(I) USE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(J) CASH AND CASH EQUIVALENTS:

Cash and cash equivalents include demand deposits and certificates of deposits with various financial institutions.

For purposes of the statements of net position the Town considers all highly-liquid debt instruments, including certificates of deposits, purchased with an initial maturity of three months or less to be cash and cash equivalents.

(K) COMPENSATED ABSENCES

During the year ending June 30, 2021, the Town only employed personnel on a part-time basis. Since the employees were part-time, paid vacation time is not offered as an employee benefit and as such the Town does not have a compensated absence liability for the year ending June 30, 2021.

(L) CAPITAL ASSETS:

Capital assets are defined by the Town as assets with individual cost, or a project with a cumulative cost of \$5,000 or more. Donated capital assets should be reported at acquisition value, or the price that would be paid to acquire an asset with equal service potential.

The Town uses the straight-line depreciation method for property, plant and equipment based on the following estimated useful lives by major class of depreciables:

<u>Class</u>	
Building and Improvements.....	40 years
Machinery and equipment.....	3-10 years
Infrastructure.....	10-50 years

(M) RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS:

GASB Statement No. 87, *Leases*, will enhance the recording and reporting by governments involved as either a lessor or lessee in a leasing arrangement. The requirements of this statement are effective for reporting periods beginning after December 15, 2021. The Town is currently evaluating the impact of implementation of GASB 87 on its financial statements.

(Continued)

TOWN OF LOUISVILLE, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
 June 30, 2021

NOTE 2 – SERVICE AGREEMENT:

Fire Protection Service Agreement:

Effective July 1, 1992, the Town of Louisville, Tennessee, entered into an agreement with the Blount County Fire Protection Unit (Fire Department) to provide a fire truck to protect the residences within the Town. The Fire Department has trained and equipped up to eight (8) volunteers for the fire protection service. The Town provides housing for the truck in the Town Hall facilities. The perpetual agreement is binding on both parties for as long as either of them exists, or until the Town undertakes to provide its own fire protection.

NOTE 3 – CASH:

In order to provide a safe temporary medium for investments of idle funds, municipalities are authorized by TCA 6-56-106 to invest in the following:

- (1) Bonds, notes, or treasury bills of the United States;
- (2) Non-convertible debt securities of certain issuers;
- (3) Other obligations which are guaranteed as to principal and interest by the United States or any of its agencies;
- (4) Certificates of Deposit at state and federal chartered banks and savings and loan associations;
- (5) Obligations of the United States or its agencies under a repurchase agreement if approved as an authorized investment by the State Director of Local Finance;
- (6) Money market funds whose portfolios consist of any of the foregoing investments if approved as an authorized investment by the State Director of Local Finance; and
- (7) The Local Government Investment Pool under which local monies are transferred to and invested with the State Treasurer's cash portfolio.

The Town has no legal restrictions governing cash deposits with financial institutions.

Custodial Credit Risk – The Town has no formal policy regarding custodial credit risk. However, cash and investments include bank balances and investments that at the balance sheet date were either entirely insured or collateralized with securities held by the Tennessee State Bank Collateral Pool.

INDEPENDENT ACCOUNTS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

June 30, 2021

Whitlock & Company, P.C.

Certified Public Accountants

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and Members
of the Board of Aldermen
Town of Louisville
Louisville, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Town of Louisville, Tennessee, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town of Louisville, Tennessee's basic financial statements, and have issued our report thereon dated April 27, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Louisville, Tennessee's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Louisville, Tennessee's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Louisville, Tennessee's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Louisville, Tennessee's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
